

FOR IMMEDIATE RELEASE

Haworth Reinforces its Selling Process with CET Designer.

Leading Office and Architectural Interior Company First to Choose CET Designer

GRAND RAPIDS, Michigan and HOLLAND, Michigan – January 9, 2006 - After the enthusiastic response at the 2005 NeoCon show, where Configura first presented CET Designer to selected Haworth dealers, Haworth has agreed to partner with Configura.

Configura's new state-of-the-art technology, CET Designer, is the foundation for the Haworth Canvas solution. CET Designer encompasses a wide range of functionality that makes it quick and easy to specify and quote configurable products.

As part of the partnership with Haworth, Configura has opened an office in Grand Rapids, MI. In addition to sales personnel and consultants, the office will be staffed with Help Desk personnel who will support Haworth dealers with CET Designer.

Since NeoCon, the Canvas project team has been adding functionality and loading their new Compose product into the software. Compose and Canvas will be available in January 2006 and more products will be loaded soon after.

According to Haworth Inc.'s Senior Vice President of Global Information Services Michael D. Moon, "Partnering with Configura will enable us to support our dealers with a highly sophisticated, state-of-the-art specification tool. It will give both Haworth and its dealers front-edge advantages in today's very competitive market." He went on to say how Configura is uniquely capable of delivering timely, cost-effective solutions, and that Haworth is looking forward to implementing CET Designer in North America.

"The fact that Haworth chose CET Designer is strong evidence that our competitive technology is outstanding when it comes to organizing an efficient and automated sales process," says Johan Lyreborn, CEO of Configura Sverige AB.

About Configura, Inc.

Configura Inc., a wholly owned subsidiary of Configura Sverige AB, is the market leader in graphical sales configuration software. The company's products are used by thousands of users in leading companies around the world. Configura's mission is to set the industry standard in software tools for automating, simplifying and speeding up sales and order processes. Well-known brands in the European office-furniture industry, such as Kinnarps and Martela, already use Configura software, as well as such North American companies as Spacesaver, Borroughs and TAB. www.configura.com
